This report covers FY 2018, the period from July 1, 2017 through June 30, 2018.
The Board of Directors’ role is to oversee the long-term health of the Calvert Marine Museum. Over the past year, we have spent the majority of our time focusing on long-range plans we introduced in 2017, as well as working through changes and solidifying the projects we initiated: expansion of our Society organization and hiring a director of philanthropy; Phase II of our Exhibition Building renovation; and initiation of a Site Master Plan.

Working with the Society team, we concentrated on building the Bugeye Society with the introduction of the “porch party” which is a great way to inform friends, acquaintances, and co-workers about the activities of the museum. As a result, we have gained numerous new members. In addition, the board went through a very detailed process to determine how best to currently utilize the Clark property that we purchased. We decided to rent out the house, thereby creating income.

We continue to plan for the Exhibition Building renovation, which will reconstruct existing space on the second floor to create a more appropriate environment for our education programs. This will facilitate the teaching of the hundreds of students that visit the museum throughout the year.

The Site Master Plan will accommodate future expansion of the museum to incorporate our new properties, including the new Paleontology Center. Being named as the State Paleontology Collections and Research Center by the State of Maryland was a great accomplishment and required lots of team work by board members and museum employees. We anticipate completing this plan in 2019.

We cannot overlook all of the income generated by our community supported fundraising events and programs. To name a few, the Waterside Music Series, Museum Store, Bugeye Ball, rentals of the Cove Point Lighthouse and museum facilities, and the memberships drives. All of these events/functions are managed by our current Society employees and supported by our numerous volunteers. A special “thank you” to such a hardworking team.

We believe the revenue generating events, combined with our new philanthropy programs, will help to secure the museum’s financial health for years to come.

Barbara Gardner
MESSAGE FROM THE CMM DIRECTOR
FY 2018 REPORT FROM THE CALVERT MARINE MUSEUM: THE YEAR OF PALEONTOLOGY

This was the year for paleontology. Not only did our paleontologists continue to find rare and remarkable fossils to add to our burgeoning collection, but they added to the collection in other ways. With the help of Tidewater Dental, CMM acquired a 5’ tall Megalodon shark jaw, constructed with real fossil Meg teeth. The paleontologists took over a small building on the new property. They christened it the “Paleo Pad”, for large fossil storage.

The most exciting development was our successful effort to work with the Maryland legislature to name the Calvert Marine Museum the State Paleontology Collections and Research Center. This honor allows CMM to continue to build on its already exceptional reputation as the largest and most important fossil collection in the state, and will boost our efforts to raise funds for a future building for the Paleontology Collections and Research Center.

The Calvert Marine Museum is a dynamic and vibrant place to be. There is always something new to see, some new discovery to share, something new to learn. Our collections, our exhibits, and most importantly the staff and volunteers bring the natural and cultural history of this region to life for our thousands of visitors. It is a privilege to lead such a wonderful institution.

Sherrod Sturrock

MISSION STATEMENT

The Calvert Marine Museum is a public, non-profit, educational, regionally-oriented museum. Our mission is to collect, preserve, research, and interpret the cultural and natural history of Southern Maryland. We are dedicated to the presentation of our three themes: regional paleontology, estuarine life of the tidal Patuxent River and adjacent Chesapeake Bay, and maritime history of these waters.

We strive to create a museum that fosters an understanding of local maritime history, nurtures an appreciation for our environment, inspires discoveries about our prehistoric past, and builds connections between people, ideas, and places. We accomplish this through engaging exhibits, relevant interpretation, and meaningful personal experience.

HIGHLIGHTS FROM FY 2018

► Attendance hit a new all-time high in FY 2018, welcoming 87,589 visitors.
► Membership reached over 3,000 and membership museum visitation soared.
► The museum’s educational programs served 25,757 people this year.
► Over 7,188 Maryland students participated in 270 educational programs.
► Our skipjack, Dee of St. Mary’s, took 764 students out during 30 educational sails.
► The Wm. B. Tennison took 278 cruises, carrying 7,490 passengers out on regular cruises, public charters, and special programs.
► A new HVAC system was installed in the Patuxent Small Craft Center.
► In Estuarine Biology, behind-the-scenes work to improve life support systems for the aquariums continued, contributing to the health of our animals.
► Platforms, new wiring, and other safety features have been added behind-the-scenes, contributing to the health and safety of our aquarist team!
► A new roof was installed on the Exhibition Building.
► Metal fencing was installed around the new properties, enabling a new layout for large events.
► 90% of the lights in the Exhibition Hall are now LED, improving energy efficiency.

Director Sherrod Sturrock, Curator of Paleontology Stephen Godfrey, Board Member Marianne Harms, and Paleontology interns joined Governor Larry Hogan, Speaker of the House Michael E. Busch and Lieutenant Governor Boyd Rutherford in Annapolis on May 15 for the signing of legislation to name CMM as the Maryland State Paleontology Collections and Research Center.
ENGAGING EXHIBITS

The museum has three permanent galleries that interpret our three themes: maritime heritage of Southern Maryland, paleontology of the Miocene epoch, and the estuarine biology of the Chesapeake Bay and its tributaries. There is also a changing exhibits area.

C MM opened three new exhibits this year. In the permanent Maritime History Gallery, the Recreational Playground exhibit opened, showing how Solomons and the surrounding area evolved from a commercial waterman’s community to a recreational destination. The exhibit brings the gallery into the present, exploring sport fishing, pleasure cruising, and power boat racing. The Maryland Heritage Area Authority, the Maryland Historical Trust, the FY 2018 Bugeye Ball and the Calvert County Board of Commissioners provided funding for this exhibit.

Dinosaurs of Maryland, our new changing exhibit, showcases the diversity and history of Maryland fossils from the age of dinosaurs. This exhibit is a collaboration between the Calvert Marine Museum, the Smithsonian’s National Museum of Natural History, Prince George’s County Government, and local fossil collectors. Support was provided by Florence J. Strean in memory of her late husband Bernard M. Strean, Jr., and by Jessica Allen. It will be on display through December 31, 2018.

Donors to the museum’s Capital Campaign, Coming of Age, are recognized on the donor recognition wall which was unveiled this year. Funds raised in the campaign helped to renovate the Exhibition Hall lobby, Harms Gallery, and Museum Store. Phase II the renovation of the second floor space for new education classrooms, storage, and offices, will take place in the winter of 2019.

▲ Photos clockwise from left to right: The Tomcsik family explores the Recreational Playground exhibit. Duck-billed dinosaurs wade into the warm Cretaceous sea while a sturgeon swims slowly by. This painting by CMM artist Tim Scheirer, displayed in the Dinosaurs of Maryland exhibit, depicts what life was like at the very end of the age of dinosaurs. Coming of Age donor recognition wall.
VISION FOR THE FUTURE: CMM PALEONTOLOGY CENTER

The museum has focused on paleontology for over 40 years, due to its proximity to the famous Calvert Cliffs, one of the most important fossil deposits on the Atlantic seaboard. Our collection, which numbers over 100,000 fossils and counting, is unrivaled in the state.

The dream of having a separate facility to house our Paleontology Department and collection has been discussed for some time. It began to take shape in 2015, when we developed a conceptual design for a paleontology center. Since then, our fossil collection has continued to grow, fed by many donations from avocational paleontologists and specimens that we excavate and curate. With our successful effort to be designated as the State Paleontology Collections and Research Center, and the completion of the museum’s new Site Master Plan, we are ready to move forward to making this dream a reality.

The Paleontology Center will house a receiving area for large fossils, a space for fossil preparation, and collections storage on the ground floor. The second level will provide space for offices, the paleontology library, a conference area, and work space for visiting scientists. It is conceived as a green building. While we are planning a viewing area for the public to watch fossil preparation in progress, the facility will be primarily for collections preparation, storage, and research.
EVERYTHING WE DO IS ABOUT LEARNING

Visitors come to CMM to learn, to enjoy, to share, and to experience all that we have to offer. Everything we do at the museum has learning at its core. Education programs are designed for all ages, from 18 months to senior citizens, and are both formal and informal. The personal interpretation of our exhibits is key to a vibrant museum experience.

During 2018, summer visitors got to experience pedal boats and rowboats in our boat basin. Thanks to funding from the Patuxent Small Craft Guild and the Conant Fund, we hired two boat basin attendants on weekends from May through October—just one example of making learning come to life.

Exhibits and experiences for visitors are only one aspect of what we do in Education. Throughout the year we offer themed events, special programs, and learning opportunities for targeted groups. A good example is our Homeschool Day. In 2018, the number of participants in this event more than quadrupled that of the previous year. We teamed up with Annmarie Garden to focus on art. In the morning, children learned how art is used throughout CMM. The afternoon session was hosted at Annmarie Garden, where participants enjoyed art activities led by educators and art experts.

Another important way that CMM educates is the many opportunities we offer college students through paid internships. The Paleontology Department routinely has three to six interns working throughout the summer. There are interns in Education, Maritime History, Estuarine Biology, and Exhibits. We have even had interns working in Development and Administration. We are committed to providing young people with an opportunity for hands-on experience in their chosen field.
The museum is ideally located at the confluence of the Patuxent River and the Chesapeake Bay. Our 13-tank aquarium houses examples of local amphibians, reptiles, fish, and mammals—all designed to help visitors appreciate the creatures that live in and around these waters.

Happy and well cared-for animals resulted in an unexpected population explosion in the Estuarine Biology Department. Our prolific seahorses produced hundreds of offspring. Yes! Seahorses are native to the Chesapeake Bay. More seahorse fun facts—seahorses mate with a single partner for an entire season or a lifetime, and male seahorses carry their offspring in a pouch in their abdomen until they hatch 20-21 days later.

Aquarists were surprised to find eggs in the display cases in the Discovery Room, and removed the eggs to be incubated in aquariums behind the scenes. The eggs resulted in twelve spotted turtle hatchlings, plus two more eggs in the incubator as of Labor Day.

A cooperative research program with the University of Maryland Center for Environmental Studies - Chesapeake Biological Laboratory involves studying our diamondback terrapins (*Malaclemys terrapin*). The research is completely harmless to the terrapins and involves weighing and measuring the animals and having their claws trimmed periodically to determine whether levels of carbon and nitrogen isotopes that accumulate in the animals’ claws can tell us about their feeding habits. Learning more about terrapins’ feeding habits could allow us to devise strategies to help save this iconic, but declining species.

Improvements to make it easier and safer for the animal care staff to access the exhibits included constructing wooden platforms at several aquarium tanks. Electrical improvements included installing splash-proof GFI protected outlets and replacing worn wiring on lights and pumps. We began the process of re-plumbing the filtration and life support systems for many of the exhibits and back-of-house holding tanks.

One of the most interesting creatures in the museum’s living collection is the magical seahorses. Seahorses are found in the Chesapeake Bay but are rarely encountered.
After 26 years at the helm of the Maritime History Department, Curator Richard J. Dodds retired at the end of 2017. The programs, collections, and sites overseen by the department grew dramatically during his tenure. After a lengthy national search, a new curator, Mark Wilkins, has been hired.

The volunteers of the Patuxent Small Craft Guild are providing labor and funding to bring a 25-foot Old Town War Canoe back to life. This classic canoe saw many seasons of use at YMCA summer camps in Calvert County. Built in 1960, the canoe was originally canvas covered and painted a bright lemon chrome yellow. It was shipped from Maine to Camp Druid Hill, a YMCA camp on the Patuxent River near Huntingtown. At that time, the camp was attended by African American youths from Baltimore. We plan to use the canoe for educational programs.

The Ark of Hungerford Creek restoration project was awarded the “Best of Maryland” Community Choice Award from Preservation Maryland in May. This unique boat was moved to its permanent site near the Corbin Pavilion in July. Originally a wooden lifeboat, it was converted to a rustic chapel by the Rev. Dr. Benjamin Lovett who christened the structure “Faith Chapel — the Ark.”

An illustrated history of the Ark was published by staff and is available in the Museum Store.

COMINGS AND GOINGS IN MARITIME HISTORY

The museum was founded by local people who wanted to preserve the maritime heritage they saw fast disappearing. The Maritime History Gallery was the first gallery opened in 1989. In our collection are two National Historic Landmarks, and two sites listed on the National Register of Historic Places. Preserving this heritage is core to our mission.
The Maritime Performance Series, which started in 2010, has evolved from sea chanteys to embrace the broad spectrum of American roots music. Jazz, blues, Celtic, Appalachian, old time, bluegrass, and unique original interpretations of all of these have been performed by talented musicians from across the country.

In 2011, the museum started collaborating with the Celtic Society of Southern Maryland to bring internationally recognized Celtic musicians into the series. Last year, the Traditional Music and Dance Society joined the partnership. We have also had wonderful support from the Solomons Holiday Inn over the years, and more recently, the Maryland Arts Council Artists Touring Program. In FY 2018, we offered nine performances over the winter, spring, and fall.

The Calvert Marine Museum enjoys celebrating the arts and our community in many different ways throughout the year. Live music is an integral part of many events. Every March, we partner with the public schools to celebrate Youth Art Month with a juried exhibit. We welcome the ‘Plein Air’ artists to paint our picturesque boats and lighthouses. We bring nationally recognized performers to Southern Maryland for our Waterside Music Series.
Our volunteer family has 476 active volunteers that have completed our training program and work with the staff in the day-to-day operations of the museum. We also have over 400 special events volunteers that work solely on events such as the Waterside Music Series.

The CMM volunteers bring a treasure trove of skill, talent, knowledge, and experience to the museum. No matter what the task is, there is a volunteer willing to step up and help out. They are vested in the museum and take great pride in helping to make the museum the best it can be.

Volunteer recognition is key to maintaining a committed core of volunteers. Each year we recognize their accumulated accomplishments in an award ceremony. In FY 2018, we recognized the volunteers pictured above.

The Volunteer Council recruits and trains effective use of the volunteers. The Volunteer Council Executive Board consists of five elected members:

The Calvert Marine Museum Society, Inc. was established in 1984 as the fund raising arm of the museum. This non-profit organization raises funds through donations, memberships, events, Museum Store sales, grants and facility use rentals. In 2018, the Society raised $2,129,252 to support the museum’s exhibits, programs, and preservation efforts. The Board of Governors, museum staff and volunteers wish to thank each and every donor that contributed to the museum’s success during FY 2018. We couldn’t do it without you!

Kate Dumhart and Coby Treadway portray Lighthouse Keeper William Goeshy and his wife, Beatrice.
The museum kicked off FY 2018 with record breaking attendance of 7,000 at the Thomas Rhett and Cadillac Three concert on July 14. This blockbuster was followed up with locally grown music stars Brothers Osborne on August 25. The season wrapped up on June 1 with two of country’s hottest stars, Jake Owen and Chris Janson, with Robbie Boothe christening our new beer garden and food court. With the success and popularity of the concerts our sponsorship grew to over 30 businesses and individuals and we had nearly 1,000 volunteers and 18,000 ticket buyers.

The Maritime History Gallery was transformed for the Bugeye Ball. Each year, the ball raises funds for a special project. ►
BUGEYE BALL

A magical place filled with lights and delights greeted guests at the 2018 Bugeye Ball. Funds from this year’s ball supported the Drum Point Lighthouse bulkhead project and helped to raise more than $50,000. These funds, combined with a $75,000 Department of Natural Resources Waterway Improvement grant, $100,000 in Calvert County Government Capital Improvement Funds, and a private donation from an anonymous donor will fund the repair of the bulkhead and pier replacement. Construction is slated to begin this winter. Thank you to all of our generous sponsors. Your generosity is critical to our success!

Income from the Museum Store is an important source of funds for the Society. The store provides an ever-changing array of merchandise. New product highlights this year include a set of fossil shark tooth coasters featuring the art of our own paleontologist, Dr. Stephen Godfrey, tins of tea showcasing Cove Point Lighthouse, and several items featuring the Drum Point Lighthouse.

Members were delighted with Coffee and Donuts (plus a 20% discount) on the 20th of each month. The Jewelry & Chocolate Trunk Show in February and ReMember Monday in November helped produce record store sales for the year.
Members are the museum’s largest group of fans! Over 3,000 strong—and growing! Our relationship with our members is of great value to us, and directly affects change in the museum. Revenue from membership has helped touch many lives over the years by supporting museum programs and exhibits. The mission-driven programs mentioned throughout this annual report are made possible in great part through contributions from individuals, corporations, foundations and government partners. The museum deeply appreciates and thanks the donors listed here for their gifts.

Each year, hundreds of schoolchildren experience the joys of sailing on the Dee of St. Mary’s, our floating classroom.
The Calvert Marine Museum is a county museum. The land and buildings, with the exception of the recent purchase by the Society, are owned by Calvert County Government. The museum receives approximately 47% of its operating support from the county, which goes toward salaries, benefits, utilities, and maintenance.

The county allows CMM to keep all earned income toward support of the museum. This accounts for roughly 10% of the operating budget and includes program income and admissions.

The Calvert Marine Museum Society, Inc. is the non-profit arm of the museum. This separate legal entity operates under a Board of Directors and exists to raise funds in support of the museum’s mission. Funds raised by CMMS account for about 43% of the operating budget and come from events, donations, grants, memberships, the Museum Store, and the Annual Fund. These funds support 7.4 full-time equivalent and 7 part-time staff, and directly support the mission of the museum.

The statement of financial position reflects only the position of the Calvert Marine Museum Society.

“The Board of Directors is greatly inspired by the sustained growth of the Calvert Marine Museum’s investments which perpetuate our financial strength and ability to deliver on the museum’s long-term mission. The generosity of our donors that graciously offer endowments and legacy gifts provide the vision for the future and secure the relevance of the museum on the local and global stage for the preservation of environmental and paleontological education. The dedication of our selfless volunteers, support from our robust membership, and the commitment of our talented staff secure the museum’s future for many generations.”

— Joanna Yakaitis, Treasurer
PLANNED GIVING

BUILDING YOUR LEGACY

Your financial support is vital to ensure that the museum continues for future generations to enjoy.

Endowed funds and legacy gifts are important ways to ensure that the museum continues for future generations. Two of the museum’s most significant gifts established endowment funds for the museum’s Education and Paleontology programs. The endowments will provide a steady source of funding for the museum for many years to come.

Several new legacy gifts were established this year. John and Wendy Peters established an endowment for the otters and the Estuarine Biology program. This endowment will provide for the care of Calvert Marine Museum’s North American River Otters, their habitat, and their exhibition.

The museum received approval from the State of Maryland to begin issuing Charitable Gift Annuities, and the first annuity was issued. With this type of gift, a donor receives income for life, and the museum receives the balance of the fund when the contract ends.

Other new gifts include notification of the bequest of a home and several notifications that the museum is being remembered in donors’ wills.

You can join these visionary donors by contacting the museum to make a gift.

WAYS TO MAKE AN IMPACT:

- Donate appreciated stock to avoid being taxed on capital gains and get a charitable deduction.
- Donate your IRA required minimum distribution directly to the museum and avoid paying taxes on the distribution.
- Think beyond cash—you can leave stock, real estate, insurance policies and personal property to the museum.
- You can include CMM as a beneficiary of your life insurance policy, pension plan, or IRA.
- Make sure you have a current will (or trust) that reflects your charitable giving objectives.
- Contact your financial advisor to see how you can make a charitable gift to the museum.

LOOKING TO THE FUTURE

In 2017, the CMMS Board of Governors purchased two adjoining parcels at the north end of the campus, giving the museum more space and more waterfront. To incorporate these properties, we initiated a Site Master Plan in March 2018, which was completed in the fall. The new plan gives CMM the tools to employ a strategic and intentional approach as we grow to better fulfill our mission. Specifically, the plan sites the new Paleontology Collections and Research Center, seen in the foreground, which is conceived to be a Leed Certified Platinum building. It creates a formal, dual-lane entrance that aligns with the new Thomas Johnson Bridge design; and it creates a strong campus core with clear waterfront access.
THANK YOU TO THE CALVERT COUNTY BOARD OF COUNTY COMMISSIONERS

From left are commissioners Pat Nutter, Mike Hart, Evan K. Slaughenhoupt Jr. (President), Steven R. Weems and Tom Hejl (Vice President).
